Hello Cruisers!

We started printing this calendar & newsletter 38 years ago. A lot of things have changed in that time period, and a lot of things have stayed constant. The technology of restoration has certainly changed. The technology of high performance has also changed. The internet has certainly changed the availability of parts and services. Swap meets are fun and we still look forward to them, but there is no doubt that the really hard to find stuff is probably online if you can afford to buy it. Also, the prices of collector and high performance cars has certainly changed over the years. The TV auctions have contributed to that. It is not unusual to see million dollar cars go over the auction block.

Now lets look at what hasn't changed. The first thing I think of is the fellowship of the specialty car hobby. It is still the same tight knit group of enthusiasts with a burning passion for the Golden Age of the automobile. Over the years that we have been involved, this fellowship is probably the most valuable. We have made so many new friends it would be impossible to count them. No matter what you are into, be it rat rod, restomod, vintage or muscle car, when you go to a car show you probably will make at least one new friend that day. This fellowship is probably the most constant and valuable feature of this hobby. We are glad to be a part of it!!
