E-Mail: susan@3dsound.org - Web Page: www.3dsound.org - facebook: 3D Sound Company

Hello Cruisers!

It is once again my pleasure to welcome all of you to the new years calendar of automotive shows and cruise nights. I have been writing this header for over 30 years. It seems like just yesterday that we started this with about 75 copies printed for us at the local school district office. Over the years the number of copies continued to climb until the numbers exceeded eight thousand. It is hard to believe that we increased our circle of old car friends so rapidly.

For several years we mailed a copy of the publication to everyone on our mailing list. The last year we did a full mailing the postage costs were over four thousand dollars!! As you may know, this publication is written in February. It is the month of lowest revenue for us, and it is hard to justify this big expense in a month we are not working. Several things have happened over the years to make this a little easier on us. Our good sponsors that are listed in these pages have stepped up and helped us bring this publication to you. Also, with the evolution of the internet we are able to take this calendar to greater number of people out there without breaking the bank. We used to have this calendar printed by an outside printing company. A few years ago we achieved the goal of being able to print them in house.

Also be advised that the events listed in this calendar are limited to the events we appear at. There are other events out there, but we try to promote the events we serve. There is a listing of events on our web page that we do not appear at, but as we have no direct contact with these promoters our list may not be complete or accurate.

Again, I would like to point out the importance of the sponsors listed in these pages. They not only help us, but they support the hobby in general. Our rule for recognizing sponsors is --- They support us - we need to support them!!

Now that the hobby seems to have survived the pandemic, hopefully we can move forward. The car shows may never be completely the same again, but I am happy to report that the 2021 season did show signs of rebound. Our bookings were about eighty percent of 2019. So far 2022 looks to have made that recovery rate at about ninety percent. We have lost a few shows along the way, but overall it looks like the hobby has endured.

One of the more noticeable losses is the Elkhorn Wisconsin event. This was a large and very popular two day event enjoyed by thousands of car folks. The swap meet will be missed by everyone. Our gratitude goes out to our friends at Madison Classics who tried everything in their power to save this event. They just couldn't overcome all the health related and economic issues. On the positive side, the spring and fall Jefferson swap meets look stronger than ever. If you are there, please stop by our booth and say Hi!!

In closing, I would like to thank all of you who have supported Susan and I through the pandemic and the health issues that we have had. I am happy to report that we are well and ready to serve the car community for the 2022 season. Let's put some wind through the radiators and get the old cars out for the public to see!! Cruise on & we will see you soon!!! **David & Susan Palmer**

We Vend at:

- Car Shows
- Swap Meets
- Cruise Nights
- Tractor Shows
- Threshing Events
