Hello Cruisers!

When I wrote the first opening comments 35 years ago, I would have never envisioned an automotive world such as we have today. The year 2020 will long be remembered as the car show season that never happened! With that being said, we are proud to present this 2021 schedule of events to you. We have contacted all of the promoters of the shows & cruises listed in this calendar. We have signed contracts for all the shows listed. The promoters assure us that they will make every reasonable attempt to hold the shows as scheduled.

Please be aware that world conditions and health concerns may prevail and prevent even the best intended efforts to actually hold the events as listed. Our advice is to contact the promoters a few days before the show date to ensure the event is still on. Contact information is available on our web page for most events. Don't hesitate to call us direct with any questions about the shows in this calendar. We may be reached at 815-973-1341 or 815-973-1342. Our Web page is 3dsound.org. Once again, please call first before driving to the event!! Stay warm and we will see you soon!!!!
